

About POST Training

POST (Petroleum Oriented Safety Training) is a petroleum-industry-based online community.

We have established a resource centre for online training, HR tools, documents and forms to help your company maintain a safe work environment.

Features:

Online Training

POST BBS Online Orientation & Test, as well as links to other online safety training. [Learn more here.](#)

Contractor Database of POST-Certified Companies

This is an opt-in service for POST certified companies. Companies register online to provide their address and services for the [searchable database.](#)

Documents

[Permits, forms, guidelines and checklists](#) to use in training and on the job site.

Resources

[Companies, products, guides and more tools](#) to help you create and promote a safe workplace environment.
