

POST Featured Contractor

We are conducting interviews with companies that would like to tell us how POST has improved their safety.

What the interview entails:

Interviews with your staff - i.e. owner, supervisors, safety officers and workers

Footage of your company using POST documentation in the field

Footage of your company demonstrating safe work practices - i.e. wearing proper PPE, following safe work procedures

Our crew films all footage. Filming of interviews and crew footage typically takes 3-4 hours.

Please contact us at info@posttraining.ca if interested
